squelched. -The crossings on Commercial avenue between Twenty-first and Thirty-fourth streets, are being filled to grade with earth, for the passage of teams. In some places the slope is rather steep; but still a great improvement on the break neck steps. If they would only step the stealings it would be all right.

-Perambulating ice creamists, have added water melons to their stock. If they would get some of the useless lanky dogs that are vagabonding about, and harness them up, and so utilize them, we could almost pardon the horrible tin-horn tootings, which are driving nervous people to the edge of lunacy.

-There are a few person sin Cairo trying to do business without advertising in THE BULLETIN or any other paper. They are the only ones who complain of not doing enough to pay expenses. Those who have, in times past, persisted in this course have invariably found their business leaving them and had to shut down.

-Mr. and Mrs. Gardner, strangers in Cairo, had a row sometime ago and parted. Mrs. Gardner repented and published her confession of marital wickedness. -The speakers at the colored barbecue Thursday, were all colored men-Messrs. Gladney, city teamster; Samuel Moody, of THE BULLETIN, and Bill Scott, of Munn's Bummers. Bill made an ass of himself by attacking Rev. Mr. Shores reputation for chartity while he was in the army.

-Good work enhances the credit of any town or city. The specimens of printing the job office are now turning out, have never been equalled in this city, and it can be confidently asserted cannot be surpassed in this, or any other state. It is, therefore, of paramount importance in every him for cursing Israel. I would not trust point of view which can be taken, that such a man at the Lord's supper; he nerchants, and others doing a large business and having extensive correspondence, should come to THE BULLETIN office for their job work. Bill heads, letter heads, cards, circulars, etc., of fine workmanship give the city a creditable name and convey a favorable impression of the good taste and mechanical skill patronized by Cairo business men.

-It has been erroneously supposed by ome that a portion of Cairo is underlaid by quicksand. The idea is entirely with- try. out any foundation in fact. The well at Mr. Thom's store, corner of Eleventh street and Commercial avenue, is 90 feet deep, and of course the water comes from a rush spring, not far off, strongly impregnated with iron. The well recently bored at the corner of Nineteenth street by Messrs. Patier & Co., to the depth of 70 feet, in like manner, though not striking rock, is of precisely the same nature, the water being, if anything, more strongly tinctured than that of the other. The water though not good for either washing or cooking is an excellent tonic, sanitary in many cases, and those who drink constantly of it derive benefit therefrom; it is besides delightfully cool. We jug it

-In this as in other cities, may be seen a number of boys of different ages loafing around street corners, acquiring street phrases of doubtful mocality, and in some instances using language of an obscene character when ladies are in the act of passing. This is especially the case on Sabbath evenings, and we have seen conduct of young persons coming from church indecorous in the highest degree, on the street. Now in Ottumwa, Town, they have a peculiar institution, and once in a while it is recorded in the local papers, so many boys "magisterially spanked" yesterday, not in an absolutely literal sense. We recommended the idea as a good one, and a few doses of leather strap, administered with discretion, would bring these youngsters, who let their immoralities fly loose on the corners, tearfully to an injured wife ruined a spittoon by time. It would put their mammas in rethrowing it at and hitting the head of membrance of their duty, and, in some instances, save the wear and tear of slipper

> JOHN KOEHLER'S NEW STORE The new brick building of Mr. John A. Koehler, gunsmi h, on Commercial avenue between Ninth and Tenth streets, is being fitted up inside and will be ready for occupation, he informs us, in about two weeks. The dimensions of the building are 25 feet by 62 feet; height, 12 feet 6 inches in the clear. The upper part of the building will be occupied as a dwelling. Mr. Koehler is an industrious, worthy citizen and an excellent mechanic. Ten years of steady, frugal industry in Cairo has enabled him to reap a rich reward. This is another instance of what the right kind of men can do in this city by stickativeness and perseverance.

CAIRO FRUIT BOX AND BASKET

This well known and thriving establishment was removed from Cobden to this city in the month of February, 1871, and went into operation in the beginning of May of the same year; the first shipment of fruit boxes, etc., being made on the 29th of that month. The machinery is driven by two engines of about thirty horse power each. Of course the business of the firm is much greater now than during the winter months, though a good business is done the year round. The chief machinery for the curious work of converting ogs into fruit boxes, baskets, etc., consists of one circular saw for sawing boards; attached is the usual friction wheel for drawing up the logs on the railway from the river; a box machine for cutting lathe for the strawberry and grape boxes; plaining machine, matching machine, two cut off saws, and three edging saws. There is also a drying kiln capable of drying 3,000 feet of lumber per day.

At the present time 75 men are em ployed, forty working in the day time and thirty-five at night. The nature of the business is such that the superintendent was unable to furnish full statistics of shipments, but were informed by him that the shipments for the month amounted to \$10,000; shipments chiefly being to points on the I. C. R. R. and the Mississippi river. Their southern trade is rapidly assuming vast proportions, and the increase of demand since their removal from Cobden has been very considerable. Besides fruit boxes and baskets, they make tobacco, cigar, cracker boxes, etc.; also mirror and picture back veneering.

The establishment has a code of regula tions which are strictly enforced, among which is the forbidding of smoking and the using of profane and vulgar language. The establishment is a credit to the city and is becoming famed from lake to ocean

VICTORY!

NORTH CAROLINA DEM OCRATIC.

THE OLD STATE EATS CROW AND LIKES IT.

WASHINGTON, D. C., Aug. 1.—All the newscentres here have been thronged during the entire evening to ascertain the rewithin menory has caused in this city so much interest, and great dissatisfaction is expressed at the meagre dispatches re-ceived. From sources thus far heard from, there seems to be little doubt of a conserthere seems to be fittle doubt of a conservative victory. This judgment is reached by comparing the present vote, so far as heard from, with that of 1870, and by considering the large gains on the part of the conservatives in the doubtful districts.

Even the Radicals do not appear to doubt that six of the eight congressmen will be for the Greeley ticket, and that the legislature will be largely in favor of the Liberals. In addition to this, all sources agree that the Liberal candidate is elected by a large majority.

Many heavy bets have been made that Merriman, the Democratic candidate for

governor, is elected by ten thousand ma-jority, and although many wagers have been offered that the Democrats would carry the state, no takers have been found and the Grant people are loth to bet even on majorities. Although the wires have been interrupted and trust worthy returns are meagre, on account of the storm which prevented communication, the general sentiment on all sides is largely in favor of the Liberal ticket. WASHINGTON, Aug. 2, 2:30 A. M.—A dis-

patch received here to-night from Senator Ransom, N. C., addressed to the editor of the Patriot, says the state of N. C. had gone largely democratic.

Another dispatch says that Leach has defeated Settle in the fifth district. [Special dispatch to the Republican.]

New York, Aug. 1.—At 6 p. m. the following, the first echo from North Carolina, was received at the liberal headquarters by U. S. Senator Ransom: RALEIGH, N. C., 4 P. M.—The state has surely gone for Greeley. Meriman and the liberal ticket is elected, and it is only a

question of majority.

NEW YORE, Aug. 1.—A special to the Tribune' from Wilmington, N. C., signed Wm. H. Bernard, chairman conservative executive committee, says that the indica-tions all point to the election of Merriman by a decisive majority.
